

RAHUL SHARMA

Senior Machine Learning Engineer - Edge AI & Model Optimization

Email: rahul.sharma@example.com | Phone: +91-98765-43210 | Bangalore, India

SUMMARY

Machine learning engineer with 10 years of total professional experience, including 4 years in machine learning, 4 years in computer vision, 3 years in model deployment and 2 years in model quantization. Earlier career in telecom networking at BSNL. Current focus: Edge AI, inference optimization and deploying deep learning models on embedded hardware.

EXPERIENCE

Senior ML Engineer, Edge AI - XYZ Technologies, Bangalore (2022 - Present)

- Deployed CNN and Vision Transformer models on TI Jacinto and Qualcomm platforms using TIDL, QNN and SNPE
- INT8/INT16 quantization with PTQ and QAT achieving 2-4x inference speedup on edge DSP and NPU
- ONNX and ONNX Runtime model conversion, graph optimization and operator fusion
- BEV (Lift-Splat-Shoot) based 3D perception for automotive ADAS
- Built Docker and Jenkins CI/CD pipelines for automated model deployment

ML Engineer - ABC Vision Systems, Hyderabad (2020 - 2022)

- Object detection (YOLO, DETR) and semantic segmentation models in PyTorch
- Training pipelines, experiment tracking, model evaluation and ablation studies
- Knowledge distillation and pruning for server-side inference speedups

Telecom Network Engineer - BSNL, Chennai (2015 - 2020)

- Enterprise routing, switching, TCP/IP and network operations
- LTE rollout support and network monitoring

SKILLS

Python, C++, PyTorch, ONNX, ONNX Runtime, TIDL, TI Jacinto, QNN, SNPE, INT8, INT16, PTQ, QAT, Knowledge Distillation, Pruning, Mixed Precision, BEV, LSS, Object Detection, Semantic Segmentation, 3D Perception, Docker, Jenkins, CI/CD, CUDA (basic), Linux, Git, Pandas, NumPy

EDUCATION

B.Tech, Electronics and Communication Engineering, Anna University, 2014

TARGET ROLES

AI Engineer, ML Engineer, Deep Learning Engineer, Computer Vision Engineer, Edge AI Engineer, ML Deployment Engineer
